## 20 55W solar panels

**A html space is showing as %2520 instead of %20**

312 A bit of explaining as to what that %2520 is :  
The common space character is encoded as %20 as you noted yourself. The % character is encoded as %25. The way you get

**How do I replace all the spaces with %20 in C#?**

How do I replace all the spaces with %20 in C#?  
Asked 16 years, 6 months ago Modified 1 year, 6 months ago Viewed 142k times

**When should space be encoded to plus (+) or %20?**

Sometimes the spaces get URL encoded to the + sign, and some other times to %20. What is the difference and why should this happen?

**C# How to Encode URL space with %20 instead of**

How to encode query string space with %20 instead of + ? Because System.Web.HttpUtility.UrlEncode() gives the space with +.

**Solar panels in San Jose for sale**

By considering factors such as your electricity usage, roof orientation, shade coverage, and available incentives, our calculator provides you with an estimate of the potential cost savings

**In a URL, should spaces be encoded using %20 or +?**

@MetaByter I think it is more technically correct to phrase the question as "In a URL, should I encode the spaces using %20 or + in the query part of a URL?" because while the example you show

#### URL encoding the space character: + or %20?

As the aforementioned RFC does not include any reference of encoding spaces as +, I guess using %20 is the way to go today. For example, "%20" is the percent-encoding for the binary

[How to run CronJob like every 20 minute of every hour from 8:20-23:00?](#)

my current cron-job is scheduled as ("0,20,40 8-23 \* \* \*") which runs At minute 20, 40, and 0 past every hour from 8 through 23. My cron-job begins at 8:00am but I want to begin at 8:20 instead.

#### The origin on why '%20' is used as a space in URLs

I am interested in knowing why '%20' is used as a space in URLs, particularly why %20 was used and why we even need it in the first place.
