

Climate change mogadishu

Overview

Mogadishu is facing escalating climate pressures, including recurrent flooding, environmental degradation, and rapid urban expansion that often outpaces infrastructure development. In a significant step toward strengthening urban climate resilience in Somalia, the Institute of Climate and Environment (ICE) at SIMAD University partnered with the Banadir Regional Administration (BRA) to deliver a three-day intensive workshop on "Strengthening Climate Change Knowledge and. The Paris Agreement of 2015 sets out a global framework to limit global warming to well below 2°C, preferably to 1.5°C (degrees Celsius), compared to pre-industrial levels. To achieve this global temperature goal, countries aim to reduce growth of greenhouse gas emissions as soon as possible and.
