In 2023, Australia saw a record surge in utility-scale battery energy storage. Let's cut to the chase: container energy storage systems (CESS) are like the Swiss Army knives of the power world-compact, versatile, and surprisingly powerful. With the How much does the energy storage grid cabinet cost?

The initial expense can be intimidating, often clouded by the initial price. This paper, funded by the Australian Energy Regulator (AER), aims to facilitate discussion on the network tariff reform and on tariffs suitable for storage (batteries). The information provided in this paper is drawn from publicly available sources. It is updated annually and consists of historical energy consumption, production and trade statistics. The dataset is. With 970MW of new rooftop solar systems installed in 2023, New South Wales broke the record for the highest annual installed capacity of any state ever recorded.
