

Current status of solar power generation base

Overview

In its latest monthly "Energy Infrastructure Update" report (with data through December 31, 2025), FERC says 17 "units" of solar totaling 993 megawatts (MW) were placed into service in December, accounting for 83.2% of all new generating capacity added during the month. The Global Solar Power Tracker is composed of worldwide facility-level data on utility-scale (1 MW+) solar photovoltaic (PV) and solar thermal facilities, as well as country-aggregated distributed (.
