

# Do solar photovoltaic panels leak liquid

## Overview

---

Yes, solar panels can leak water. Leaks can occur through cracks or gaps in the panel's frame, faulty seals around electrical connections, or punctures caused by. But do solar panels leak water?

That means, is it going to damage your roof?

Well, not really, but it can certainly do in sporadic cases. That is the primary reason why all the homeowners are scared and confused about installing solar panels. Modern solar panels are specifically engineered to be highly water-resistant, meaning the panels themselves are rarely the source of a leak.
