Does the outdoor power supply need to be discharged after purchase

Overview

Yes, you can keep your power station plugged in after a full charge. Outdoor power supplies, such as solar generators or portable battery packs, are exposed to harsh conditions-temperature swings, moisture, and uneven loads. Check if the supporting equipment is compatible. Temperature: Avoid using in extreme high or low temperature environments, as extreme temperatures may affect battery performance or. Vacuum internal fans (after disconnecting power). Red flag: If the battery gauge drops >10% overnight, replace cells immediately.
