

Electric vehicle safety cyprus

Overview

Cyprus aims to reduce conventional vehicle use from 97% to 70% by 2030, with a goal of registering 85,000 electric vehicles (EVs). However, with just 2,270 electric vehicles sold last year—largely due to a state subsidy programme—the country is preparing a new subsidy scheme to support the purchase of electric vehicles until 2030, as the government seeks to accelerate the country's transition to cleaner transport while addressing infrastructure gaps and growing traffic pressures. Presenting the Ministry of Transport, the Council of Ministers approved a new €2.5 million electric vehicle incentive scheme on Wednesday, maintaining existing grant levels of up to €9,000 for electric cars and €7,500 for hybrid vehicles amid sluggish adoption rates. The scheme mirrors previous frameworks offered in recent years. The incentives and legislations section is updated for 2025, published on 18th April 2025, representing the situation as of that date. , President of the Cyprus E-Mobility Association. The numbers back him up: in 2024, the EV market share in Cyprus nearly doubled from 2%. The grants range from €1,500 to.
