

Electricity policy vienna

Overview

The National Council has passed the new Electricity Industry Act (EIWG) by a large majority: modernization of the electricity market, greater security of supply, social measures, and expanded rights for energy communities. Learn more now!. The Municipal Department 20 - Energy Planning (German) is committed to making the energy supply in our city fit for the future and to advance the energy transition. Our goal is a secure, climate neutral and renewable energy system that remains affordable for all people living in Vienna. With a lot. Amid mounting concern over rising electricity costs, Austria is introducing its most ambitious power market reform in two decades. For several years, climate change, the liberalisation of electricity and gas markets, and the necessary massive increase in the use of renewable. Yesterday, December 11, 2025 The Austrian National Council passed the new law with a two-thirds majority. Will the energy transition be thrown off course?

Not if we seriously start to build.
