2022: A year of environmental milestones

Photo: UNEP This year, UNEP campaigns raised awareness about a multitude of environmental issues. World Environment Day, the International Day of Clean Air for blue skies and

[AI has an environmental problem. Here's what the world can do](#)

The sprawling data centres that house AI servers churn out toxic electronic waste and are voracious consumers of electricity, which in most places is still produced from fossil fuels.

[Seoul Telecom's Off-Grid Energy Storage: Powering Urban Resilience](#)

You know how it goes - one storm knocks out power for 200,000 people, hospitals switch to generators belching diesel fumes, and subway stations turn into candlelit caverns. Well, Seoul Telecom's new off

Why Environmental Policy

Environmental policy and law should work cohesively in addressing these issues. Effective, coherent and forward-thinking environmental policies are indispensable building blocks to

Power Your Project: An Overview of

Off-Grid Solar Storage Systems: Containerized

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient solutions provide

Environmental Moments: A UN75 timeline

In recognition of the 75th anniversary of the United Nations, United Nations Environment Programme (UNEP) compiled a series of snapshots overtime. In 2022, UNEP will celebrate its 50th anniversary,

Shipping

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

EnvironmentGPT

How is the health of our planet doing right now, and what does that mean for us? What indicators show the current state of global environmental health, and what policy priorities should address them?

[Seoul Energy Storage Container Rental: Your Flexible Power Solution](#)

Let's face it - Seoul's skyline isn't just about glittering skyscrapers anymore. Hidden between those glass giants are energy storage containers, quietly powering everything from K-pop concerts to smart

[The judiciary for climate justice and environmental rule of law](#)

Inger Andersen, of UNEP, urges courts to champion climate justice and environmental rule of law to protect human rights amid worsening climate impacts.

[Seoul's first grid-side solar container power station put into operation](#)

With the announcement of the "2022 Comprehensive Plan for the City of Solar Power," Seoul offered support for the central/local government expenditures to fire stations, Arisu Water Purification

[One for all, and all for one on environmental action](#)

Inger Andersen, UNEP Executive Director, urges unity across environmental conventions to tackle indivisible crises through coherent governance and integrated action.

Off-Grid Solar Storage Costs in Korea

Maybe it's time to stop thinking about off-grid solar containers as emergency backups. With the right design, they're becoming permanent energy solutions - even in Seoul's pricey

[Multilateral actions to safeguard the environment: A timeline](#)

Since the founding of the United Nations in 1945, countries have worked together to forge

groundbreaking agreements to safeguard the environment. From protecting species to

About environmental rights and governance

In our globalized world, environmental threats require effective responses that promote peace, justice, development and the fulfilment of environmental and human rights. UNEP promotes
