

Environmental sustainability sierra leone

Overview

Sierra Leone ranks among the 15 worst climate-affected economies, with projected temperature increases and erratic rainfall patterns threatening agriculture and infrastructure, potentially causing GDP losses of 9-10% by 2050. As we release the Environment Protection Agency's (EPA) 2024 annual report, we take stock of the tremendous progress we've made this year and anticipate our goals for 2025. The successful execution of the EPA Transformation Strategy (EPATS) is highlighted in this report, demonstrating our steadfast. All work in Sierra Leone is guided by the United Nations Sustainable Development Cooperation Framework UNSDCF Sierra Leone 2020-2023. It features four key priority areas of intervention: 1. Transformational Governance; 3. Access to Basic. FREETOWN, June 16, 2025 - The World Bank today launched the Sierra Leone Country Economic Memorandum (CEM) and the Country Climate and Development Report (CCDR), two core analytical reports that provide essential insights into the country's economic and climate challenges, offering strategic. It is with immense pride that I present a blueprint for a sustainable and prosperous future. Among its many goals, this program is dedicated to achieving the Global.
