

# Factory builds solar power station

## Overview

---

This map provides information about all of the solar photovoltaic (PV) manufacturing facilities in the United States and how they contribute to the solar supply chain. Californian based solar power plants' solutions provider Terabase Energy has come up with a novel technology which is virtually a 'factory that builds solar factories. ' It has launched Terafab which the world's first automated & digital field factory for solar power plant construction. The Terabase. More than 30,700 solar panels to be installed across 80 acres. Solar is a key initiative to increase the factory's use of renewable energy and support its ongoing commitment towards more sustainable operations. Its products cover lithium.
