

Factory price aurora inverter in Switzerland

Overview

Recent pricing trends show standard home systems (5-10kWh) starting at \$8,000 and premium systems (15-20kWh) from \$12,000, with financing options available for homeowners. We are pleased to share that we are actively working on the development of a completely new generation of inverter-chargers and solar-chargers designed for more demanding applications in offgrid/ongrid energy systems telecommunication infrastructures, mobility, oil & gas and defense sectors. Current valuations place the market at approximately \$7 billion, with projections indicating a compound annual growth rate (CAGR) of 5-7% through 2028. This trajectory reflects increasing investments in solar infrastructure across residential, commercial, and utility-scale applications worldwide. This helps users earn credits or lower their electricity bills. Key features include: .
