Solving equations involving the floor function

Solving equations involving the floor function Ask Question Asked 13 years, 1 month ago Modified 2 years, 4 months ago

'Floor' and 'ceiling' functions

Is there a convenient way to typeset the floor or ceiling of a number, without needing to separately code the left and right parts? For example, is there some way to do $\lceil x \rceil$ instead of

Solar Underfloor Heating Guide: Everything You Need

The workings of solar underfloor heating involve using solar panels to capture sunlight energy, which is then utilized to power heating coils in a hot

Ceiling and floor functions

What are some real life application of ceiling and floor functions? Googling this shows some trivial applications.

Big floor symbols

When I write $\lfloor \frac{1}{2} \rfloor$ the floors come out too short to cover the fraction.

integration

How can I lengthen the floor symbols?

Plotting greatest integer function (floor)

4 How can one plot $y=1/\text{floor}(1/x)$ in pstricks? where floor is the greatest integer function. i.e. floor (2.5)=2 and floor (-0.5)=-1. I need to generate something like what I generated in sage: But I do not

Best Solar Powered Underfloor Heating Guide (2024)

Easy To Install Systems. 25 Year Warranty. Fast Affordable Shipping

Adjusting the height of math floor symbol

The height of the floor symbol is inconsistent, it is smaller when the fraction contains a lowercase letter in the numerator and larger when the fraction contains numbers or uppercase letters

Formula for the floor function

The most natural way to specify the usual principal branch of the arctangent function basically uses the idea of the floor function anyway, so your formula "for" the floor function is correct

[How to Graph Floor/Ceiling Functions in LaTeX \(PGFPlots\)](#)

The PGFmath package includes a ceil and a floor function. The pgfplots offers a few options for Constant Plots (see manual v1.8, subsection 4.4.3, pp. 57ff.). The option jump mark left
