

# India Wind Solar and Energy Storage Project

## Overview

---

India plans to develop a 13 GW hybrid renewable energy park in Ladakh, spanning solar, wind and battery storage systems across Pang, Debring and Kharnak. A hybrid renewable. According to the company, once completed, the projects will double ArcelorMittal's renewable energy capacity in India to 2GW. With generation assets across 13 states, we have a balanced portfolio comprising over 7. Dramatic cost reductions over the last decade for wind, solar, and battery storage technologies position India to leapfrog to a more flexible, robust, and sustainable power system. India achieved the milestone of 50% of its cumulative electric power installed capacity from non-fossil fuel sources in June 2025, five years ahead of the 2030 target set under its Nationally Determined Contribution (NDC) to the Paris Agreement.
