

# Indiana solar panel incentives

## Overview

---

Indiana homeowners can access several solar incentives in Indiana - including state tax exemptions and local utility programs - that help lower the overall cost of going solar. This guide lays out the incentives Hoosiers should know about to make the best decision for their Indiana homes. com Supported by \$182 million in federal funding, the Indiana Energy Saver Program will reduce the upfront cost of eligible energy efficiency upgrades to assist Hoosiers in reducing. Indiana homeowners can lease solar for as low as \$109/month with no upfront cost through Palmetto's LightReach program - Palmetto owns and maintains the system. All Indiana residents can claim the 30% federal Investment Tax Credit (ITC), which alone can save thousands of dollars.
