

Malaysia Hybrid Compression Energy Storage Project

Overview

The Southern Johor Renewable Energy Corridor (SJREC) will be developed as part of a \$6 billion project for a 2,000 kilometer-squared hybrid solar and battery energy storage system zone connecting South East Asia.

Malaysia Hybrid Compression Energy Storage Project

PR 230316

This initiative aims to enable the adaptation of EVs in an alternative way compared to buying new EVs, which are generally 20-50% more expensive and to support Malaysia's target to reduce carbon
