

Modular battery cabinet manufacturer with constant temperature and humidity

Overview

We provide advanced climate controlled systems designed for diverse needs, offering reliable performance from -22 and +131 Fahrenheit (-30°C to +55°C) with constant temperatures of +/-1 K. Key features include humidity regulation, temperature mapping, insulated switch cabinets, and rapid cooling. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. Building on this analysis, this paper summarizes the limitations of the existing technologies and puts forward prospective development paths, including the development of multi-parameter coupled monitoring and warning technology, integrated and intelligent thermal management technology, clean and. Our containerized Battery Energy Storage System (BESS) is engineered for peak performance, effortless deployment, and long-term reliability. Designed with a fully modular architecture, individual components can be serviced or replaced without disrupting the rest of the system-keeping maintenance. Power Storage Solutions partners with AIB Kunstmann, leveraging their 35+ years of expertise in stationary battery deployment and maintenance. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and fully control the system status. Single product capacity up to 366 kWh, 200kW ~ 2MW wide.
