

New lightweight solar modules

New lightweight solar modules

LONGi Launches Lightweight Module, Officially

On August 15, 2025, LONGi launched the Hi-MO X10 Light design Module, officially targeting the low-load C&I market.

Lightweight Solar Panels: What You Need to Know

As solar technology advances, various types of lightweight solar panels have emerged, each with unique characteristics and applications. Let's explore five

javascript

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take {new(): T; }. You are right it is a type. It is the type of a class

[Difference between 'new operator' and 'operator new'?](#)

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

[LONGi unveils new lightweight BC module for rooftop C&I](#)

Chinese module manufacturer LONGI has launched a new back-contact (BC) lightweight module for commercial and industrial (C&I) rooftop

What is the Difference Between 'new object()' and 'new {}' in C#?

Note that if you declared it `var a = new { }`; and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

What is the 'new' keyword in JavaScript?

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

How does the new operator work in JavaScript?

The new operator uses the internal `[[]]` method, and it basically does the following: Initializes a new native object Sets the internal `[[]]` of this object, pointing to the Function prototype

[New site design and philosophy for Stack Overflow: Starting February](#)

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

Is JavaScript's "new" keyword considered harmful?

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

new operator

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new expressions.

6 Lightweight Rooftop Solar Panel Innovations for

In summary, a combination of material science, design innovation, and smart technology is making lightweight rooftop solar panels practical for
