

New solar panel manufacturer in the Netherlands

Overview

SolarNL is creating a new manufacturing industry for solar panels for use in our own country and in Europe. The SolarNL program thus contributes to the energy transition and the energy independence of the Netherlands and the European Union. Supported by a subsidy from the National Growth Fund, InvestNL, and private investors, production facilities will be built at several locations in the. Our close cooperation with various specialists has resulted in lightweight solar panels which are truly circular, using fibre-reinforced polymers and other materials developed for us by SABIC. Our website rewards our customers with weekly product coupons. Here you will find everything you need for your photovoltaic system. Driven by ambitious climate goals and supportive policies, the Dutch solar sector represents a fascinating case study of successful energy transition.
