

Nigeria s new mobile energy storage power supply

Overview

Through Project HIGHNESS, AceOn is deploying a 215kWh mobile energy storage unit in partnership with the Nigerian Red Cross. This initiative will support humanitarian energy needs while validating system performance in real-world conditions. Its innovative. The Nigeria Renewable Energy Storage System is a distributed lithium battery energy storage solution designed to provide reliable and sustainable power for self-consumption and backup needs. This article explores its technological innovations, market potential, and how it addresses Africa's growing energy demands. Each of the 13 energy storage cabinets features an all-in-one, factory-integrated design developed and manufactured entirely by Namkoo. Over that time, we've deployed and are now developing over 500 MWh of battery. The Landmark Centre in Lagos will host one of West Africa's most anticipated energy events, the Nigeria Energy Exhibition & Conference 2025, from October 28 to 30.
