

# Off-grid solar container for field operations 120 feet

## Overview

---

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Our solar shipping container and solar panel container range uses a folding solar container design: container solar panels and a complete container solar system in one unit. Pre-assembled for mining, emergency relief, eco-tourism, and off-grid - CE-certified, IP65-rated, with 60-80% fuel cost. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators-engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. Here are the most relevant articles from our database.
