Effective risk communication practices take account of the prevailing social, political and administrative traditions and regulatory frameworks in a country. The Mobile & Wireless Forum is an international association of companies with an interest in mobile and wireless communications. A single lightning strike can damage critical telecom equipment, interrupt network services, and even endanger maintenance personnel. The standard is intended to reduce the risk of electrocution or serious injuries occurring if the antenna contacts an electric power line. In case of any existing or perceived difference in contents between such versions and/or in print, the prevailing version of an ETSI deliverable is the one made publicly available in PDF format on ETSI deliver repository. Base stations emit radiofrequency electromagnetic. This chapter provides requirements and recommendations for designing communications site buildings, including equipment shelters and outdoor cabinets.
