

Principle of automatic snow removal of photovoltaic panels

Overview

Installing an automatic heating/ cleaning system is the best way to remove snow from solar panels. The system works by using heating elements placed behind the solar panels to melt snow and ice.

Principle of automatic snow removal of photovoltaic panels

[A novel domino-like snow removal system for roof PV arrays:](#)

The domino-like snow removal strategy is first proposed, whose core idea is to use the energy from uncovered PV modules to accomplish snow removal in PV systems string by string.
