

Research and development of photovoltaic brackets

Overview

Abstract: In order to improve the overall performance of solar panel brackets, this article designs a solar panel bracket and conducts research on it.

Lightweight design research of solar panel bracket

Based on this, this article conducts research on solar panel brackets, and the analysis results can provide reference basis for the design of subsequent solar panel brackets.

(PDF) What is research?

Research has to have an element of discovering something new, of creating knowledge. While a literature search is one important part of a research project, it isn't research in and of itself.
