

# Self-operated solar container outdoor power

## Self-operated solar container outdoor power

---

[Instant Off-Grid\(TM\) Shipping Containers with Solar and Batteries and AC+](#)

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

[How can I create a self-signed certificate for 'localhost'?](#)

I've gone through the steps detailed in [How do you use HTTPS and SSL on 'localhost'?](#), but this sets up a self-signed certificate for my machine name, and when browsing it via <https://localhost>, I receive

[Create a trusted self-signed SSL certificate for 'localhost' \(for use\)](#)

I am trying to follow various instructions on creating a self-signed certificate for use with localhost. Most of the instructions seem to be for IIS, but I'm trying to use Node.js and Express.js.

[Getting Chrome to accept a self-signed localhost certificate](#)

I have created a self-signed SSL certificate for the localhost CN. Firefox accepts this certificate after initially complaining about it, as expected. Chrome and Internet Explorer. However,

### security

This creates a self-signed (-r) certificate, with an exportable private key (-pe). It's named "My CA", and should be put in the CA store for the current

[In CSS Flexbox, why are there no "justify-items" and "justify-self"](#)

Scenarios where these properties would be useful: placing a flex item in the corner of the flex container `#box3 { align-self: flex-end; justify-self: flex-end; }` making a group of flex items align

[Openssl : error "self signed certificate in certificate chain"](#)

You have a certificate which is self-signed, so it's non-trusted by default, that's why OpenSSL complains. This warning is actually a good thing, because this scenario might also rise due

**Off-Grid Container Homes , Eisel-Power**

user. We're using the SHA-256 algorithm.

[How can I generate a self-signed SSL certificate using OpenSSL?](#)

How to create a self-signed certificate with OpenSSL The commands below and the configuration file create a self-signed certificate (it also shows you how to create a signing request).

[Mockito is currently self-attaching to enable the inline-mock-maker](#)

I get this warning while testing in Spring Boot: Mockito is currently self-attaching to enable the inline-mock-maker. This will no longer work in future releases of the JDK. Please add

We're converting two shipping containers into an off-grid home! Each unit includes solar power, battery storage, water & septic-ready setup, and modern finishes.

[CargoSolar - Solar-Powered Container Homes & Studios](#)

Complete guides to building container homes, podcast studios, and production spaces - powered entirely by the sun. From 20-foot starter builds to multi-container compounds.

[Self-reference for cell, column and row in worksheet functions](#)

In a worksheet function in Excel, how do you self-reference the cell, column or row you're in?

**Off Grid Container Homes**

Discover off-grid shipping container homes! Eco-friendly, self-sufficient living with solar power & more. Unplug & thrive today!

[What is the purpose of the 'self' parameter? Why is it needed?](#)

For a language-agnostic consideration of the design decision, see What is the advantage of having this/self pointer mandatory explicit?. To close debugging questions where OP omitted a self
