Why Source from China?Types of Solar InvertersString InvertersMicroinvertersCentral InvertersOther Types of InvertersString inverters are the most commonly used type of inverters in residential and small commercial solar panel systems. They are called "string" inverters because they work by connecting a series or "string" of solar panels together and then converting the DC electricity generated by the panels into AC electricity. In a solar panel system with a str See more on climatetechreview Missing: LisbonMust include: LisbonMade-in-China
