

# **Solar panels should choose low current or high voltage**

## Overview

---

High voltage solar panels are more efficient than low voltage panels and require less space to deploy thus reducing the cost of materials and labor to mount them on a roof or ground mount.

## Solar panels should choose low current or high voltage

---

### Solar power

Solar power, also known as solar electricity, is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV) or indirectly using concentrated solar power.
