Power Generation

Solar offers factory packaged gas turbine-driven generator sets from 1-23 MW. These generator sets include industrial generators that are in compliance with

Solar Titan 350

The "35 MW" in the name indicates the power output capacity of the turbine, which is approximately 35 megawatts. The Solar Titan 350 is designed to provide a compact and modular solution for various

Solar Power World's Most Recent Solar News Updates

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Solar explained

People have used the sun's rays (solar radiation) for thousands of years for warmth and for drying food. Over time, we've developed technologies to capture solar energy for heat and to convert it into

Solar power

Solar power, also known as solar electricity, is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV) or indirectly using concentrated solar power.

Solar Energy

There are two main types of solar energy technologies-photovoltaics (PV) and concentrating solar-thermal power (CSP). On this page you'll find resources to learn what solar
