

Solar power with grid backup in bahamas

Overview

The island is set to welcome innovative hybrid microgrid facilities that combine solar energy, energy storage, and microturbines. These integrated energy sources will create a flexible and reliable power system tailored to the island's unique energy needs. This project will deliver the first significant solar installation in New Providence. With a rich history dating back to 2017, we have proudly served as pioneers in the field of sustainable energy, specializing in the development and management of On/Off. Is your electrician solar trained and how many solar projects has he done?

Does your roof have a southern-facing side and is it sun-exposed or under the shade?

why choose us?

There are a lot of folks claiming to be solar installers. self-sustaining solar project including battery storage on Ragged Island catering for all its 100 inhabitants was established for a total cost of \$3 million.
