

Solar support roof

Overview

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Generating clean energy with a Timberline Solar ® roofing system is best for those planning to install a new roof. That's because Timberline Solar ® integrates with any Timberline ® asphalt shingle, making it a smart alternative to rack-mounted solar panels installed on existing shingles that can. Install Solar Roof and power your home with a fully integrated solar and energy storage system. Age Matters More Than Weight: Roof condition and age are often more. We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan. Your roof needs a minimum live load capacity of 20 pounds per square foot after installation. Key factors include roof age, material type (tile vs.
