

Solar support rooftop installation price

Overview

Solar panel installations typically cost between \$13,962 and \$27,924 in 2026. The actual price tag depends on your home's energy needs, roof characteristics, local incentives and other factors, all of which we'll break down in this guide. Solar Costs Have Reached Historic Lows: Average residential solar costs have dropped to \$3.30 per watt in 2025, representing a 60% decrease from 2010 levels. Combined with the 30% federal tax credit extended through 2032, most homeowners can achieve payback periods of 6-12 years with 25+. Notably, solar ITC apply to the full amount paid for the installation of a new solar panels system. 86 cents per kWh - up 56% since 2020 - it's no surprise California ranks 1st in the nation for residential solar installations. More homeowners are turning to solar to better manage rising energy costs. Savings: Solar systems can reduce electricity bills by \$1,500 annually, potentially saving \$37,500 over 25 years. Payback Period: Many systems pay.
