

Special shaped creative photovoltaic panel manufacturers

Overview

Custom solar panels built to your exact size, voltage, cable and mounting needs. Engineering support, prototypes, QA testing, and global delivery. With a focus on maximizing energy yield and plant performance, we offer innovative engineered designs and control systems for utility and commercial solar projects. Our proprietary PowerFilm designs and manufactures custom solar cells, panels, and power solutions for portable, and remote power applications using proprietary thin-film amorphous silicon or high-efficiency crystalline PV technology. With over 200 staff years of engineering experience, we have a track record of. By choosing LinkSolar, you can specify every parameter: physical size, voltage and current rating, connector position, cable length, finish, and branding. Our engineers translate those specs into manufacturable drawings and deliver panels that integrate cleanly with your product, saving. Asoleyo is applying the artistic principles of symmetry, rhythm, and line to the functional metallization patterns of silicon solar cells, creating custom designs for solar cells of any shape or size, using existing manufacturing equipment, processes, and materials.
