

Strip solar container lithium battery pack

Strip solar container lithium battery pack

python

I was told it deletes whitespace but `s = "ss asdas vsadsafas asfasasgas"` `print(s.strip())` prints out `ss asdas vsadsafas asfasasgas` shouldn't it be `ssasdasvsadsafasasfasasgas`?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

python

I want to eliminate all the whitespace from a string, on both ends, and in between words. I have this Python code: `def my_handle(self): sentence = ' hello apple ' sentence.strip()` But that

string

`lstrip`, `rstrip` and `strip` remove characters from the left, right and both ends of a string respectively. By default they remove whitespace characters (space, tabs, linebreaks, etc)

[What is the difference between "gcc -s" and a "strip" command?](#)

What's the equivalent to `gcc -s` in terms of `strip` with some of its options? They both do the same thing, removing the symbols table completely. However, as @JimLewis pointed out `strip` allows finer
