

Suriname PV and energy storage policy plan

Overview

In 2023, the government announced plans to increase renewable energy adoption to 40% by 2030, with solar power and energy storage at the core of this strategy. Let's dive into the policies driving this shift. "Energy storage isn't just a backup plan-it's the backbone. Solar and energy storage developer Elements Green has secured planning permission for its Staythorpe battery energy storage system (BESS). Learn how this initiative supports solar and wind integration. Revenues must be strategically reinvested into Volume II - Technical Plan, which covers the electricity demand forecast, the expansion plan for generation, transmission.
