Rooftop solar and storage report

This is the first edition of a new half-yearly report, monitoring the progress of the deployment of rooftop solar and behind-the-meter energy storage systems in Australia.

Energy Storage

The Australian Energy Council has released its Energy 2050 report addressing what policy makers and industry might do to deliver a net zero

GEM 2024 Solar PV and Battery Projections Report

The Australian Energy Market Operator (AEMO) has engaged Green Energy Markets Pty Ltd (GEM) to provide several scenario-based

projections to 2059-60 of solar and stationary battery uptake for the

Australian Renewable Energy Agency (ARENA)

The Australian Renewable Energy Agency (ARENA) improves the competitiveness and increases the supply of renewable energy in Australia.

[What energy storage technologies will Australia need as renewable](#)

The paper reviews energy storage technologies and their applicability to the Australian National Electricity Market (NEM). The increasing dynamic variability between maximum and

Australia's solar & storage sectors drive record Q3

Australia's solar and energy storage sectors delivered strong performance during the third quarter of 2025, with grid-scale solar generation

National Survey Report of PV Power Applications in

This report provides a comprehensive overview of the Australian PV market, which recorded strong growth in 2024 and achieved a cumulative installed capacity of
