Lithium iron phosphate

Overview

When you unbox a brand-new outdoor power station, it's tempting to start using it immediately. But here's the catch: most lithium-ion batteries arrive partially charged, not at full capacity.

The outdoor power supply is fully used before charging

Best practices for charging / discharging batteries

Is it best to use the battery off and on until it is totally drained, before recharging fully, or just recharge to full after every use? Battery technologies
