

# What does 15min for energy storage system mean

## Overview

---

The 15-minute rule means the control room can only dispatch them for up to 15 minutes at a time. Concretely, this means the Market Time Unit (MTU) will shift from a 60-minute to a 15-minute resolution. The daily auction at 12:00 CET will no longer be limited to hourly intervals but will be conducted simultaneously at 15-minute intervals across all SDAC bidding zones and borders. This is why runtime matters so much in Home Energy Storage planning. To clarify this description further, consider everyday examples. Over time, you might notice that it doesn't hold a charge as long as it. These values are currently set based on the maximum power that can be delivered for 15 minutes. As of 1 March 2024, MEL and MIL will change to represent the maximum power that can be. What is Short-Term Energy Storage Systems ?

Short-Term Energy Storage Systems (STES) are designed to store energy for minutes to a few hours, typically less than 6 hours.

## What does 15min for energy storage system mean
